[SPECIAL TO THE EVENING WORLD. SREEPSHEAD BAY RACE TRACK, AUE. 30. The greatest interest centres in the race for the Futurity Stakes, worth \$70,000 to the winner, to be decided this afternoon. It is the third race on the card, and there are

When an Evening World reporter reached the track this morning he found it in splendid condition, thanks to the un-tiring energy of Supt. Brush.

The horse most talked of as a winner this morning was Rey del Rey, who will sport Mr. Ehret's colors with Martin up. With top weight he was very close to the leaders in the Junior Champion Stakes, and his trainer is confident that he can pull off the rich prize this afternoon. He is a full brother of Ei Rio Rey, the unbeaten twoyear-old.

The conditions of the race make it necessary for Strathmeath and Sallie McClelland to carry top weights to-day, which would seem to indicate the impossibility of either capturing the prize.

Strathmeath, however, should be near the

Strathmeath, however, should be near the front at the finish.

Morris's Reckon and Ambulance should not be lost sight of.

Littefield will ride Ambulance and George Covington will have the mount on Reckon.

The race is certain to prove a heavy betting event, and it is estimated that over \$1,000,000 have already been watered in the Winter books on the result.

As early as daylight this morning the cracks were out exercising in blankets, and the track presented a bustling and picturesque appearance.

Sheepshead is one of the prettiest race tracks in the world, and for the Fall meeting Frank Clark has spared no pains to add to its attractiveness.

Frank Clark has spared no pains to add to its attractiveness.

No velvet carpet in a lady's bondoir ever felt softer under foot than did the smooth green lawns at the race track this morning. Flowers abounded; the paddock was surrounded by them. The grand walk and shaded paths invited rest and recreation, and the stables in their white paint looked unusually neat and clean, and as the horses kalloped by, no more animated picture could be desired. People began to arrive at the track as early as 10 o'clock, and a great crowd is expected this afternoon. Garrison was one of the earliest arrivals at the track this morning. The great locky looked a trifle worsied. He will ride Congressman Scott's speedy filly Amulet.

Isaac Murphy was to have ridden Montana to-day but his suspension has left trainer Matt Byrnes in a quandary. He had not the slightest idea this morning, he said, as to who would ride the siashing coit. Lucky Baldwin's entries. Cleopatra and Esperanza, are well thought of, especially the latter, who, with 105 pounds up and ridden by Barnes, will certainly have plenty of backers.

Filla was a domestic in one of the families living in the Wave Crest flats, at 39 East Fiftieth street. She was a Swede, twenty-two years old and very attractive. It is not mown, however, that she had any followers.

As she did not appear or respond when alled this morning the door of har was forced ones.

As she did not appear or respond when called this morning the door of her room was forced open at 8.30 o'clock, when the girl was found dead in her bed. She had died from strangulation.

Around her throat was closely tied a twisted towel, which had been drawn so tightly as to stop respiration. She had evidently been dead several hours.

The Coroner's office was notified and will investigate the matter.

> Programme of the Several Events Confident of Establishing the Justice of Their Fight Against the Central.

There is a lull to-day in the attitude of tipsters think should win on their merits at the Knights towards the New York Central war, the leaders, who are at the St. Cloud Hotel, using all their energy in making preparations for the official inquiry to be begun by the State Board of Arbitration on Tuesday.

General Master Workman Powderly has been in correspondence with the members of the General Executive Board who are at points along the line of the road, and it is the intention of the Knights to expose a number of transactions by the New York Central extending over several months past, showing its preconceived determination to wipe out the Knights of Labor on its system.

While Mr. Powderly and his associates are loathe to state what they expect to prove at the investigation they intimate that Vice-President Webb, if he testifies at all, will not relish a cross-examination concerning his hostile acts early in the Summer against Knights who took an active interest in the organization.

A score of affidavits have been secured and they will be introduced to prove that on several occasions certain officials of the road have informed the Knights that it would be to their interest to withdraw from the Order.
